Dear Curious Spark,

I am writing to you today to say thank you for coming to our school and interacting us with the stained glass window. Thank you also for coming and spending time with us all.

I really appreciate you coming to our school and showing us how to make stained glass windows with cellophane, it was so much fun.

I really enjoyed creating a stained glass window for me and hall, the part I really enjoyed was putting the cellophane on the sticky paper. It was so fun and easy to do but the sticky paper was very sticky and would collect other things from the table.

I have learnt how to draw a horse and make it look like a real horse I have also learnt that if you stick something to the sticky paper you cannot get it off.

I would improve my Art by maybe adding different colours together and making it look realistic. Once again thank you so much for coming.

Your Sincerely
Charlotte
