

Science

From rainforests to rock pools, Woodpecker Class will be exploring a variety of habitats and discovering how animals and plants survive and thrive. They'll take on the role of nature detectives to understand the delicate balance of ecosystems.

PSHE

We'll be continuing our work on relationships and growing up, delivered in a thoughtful and age-appropriate way. Woodpecker Class will also learn how to look after their bodies and minds through healthy lifestyle choices.

History

Get ready to march with the Romans! Woodpecker Class will continue to uncover why the Romans came to Britain and how tricky it was for them to invade and settle.

Geography

Our volcano adventures continue as we investigate why people live near these explosive natural wonders. Woodpecker Class will explore fascinating case studies and weigh up the dangers and rewards.

Writing and Reading

Woodpecker Class will be mastering the art of writing clear and powerful instructions – perfect for budding inventors, chefs or game designers! They'll also dive into exciting narratives, using dialogue to bring their characters' voices to life.

Woodpecker Class will be reading *Dancing Bear* by Michael Morpurgo. They will read and summarise a short part of the text each day and will answer questions to learn more about the characters and themes.

Woodpecker Class Summer term 2 2025

R.E.

Our Big Question – What beliefs drive people to make a difference in the world?

Woodpecker Class will be delving into Hindu beliefs about karma, asking: how do our actions affect our future? They'll explore how Hindus try to live good lives and make positive choices.

PE

This half term brings action-packed athletics lessons, where Woodpeckers will run, jump and throw their way to success. They'll also be learning the fast-paced game of rounders with a specialist coach.

Maths

We're continuing our journey with decimals before exploring money, shapes, and statistics through hands-on activities and real-life contexts. Woodpecker Class will be solving problems, spotting patterns and building confidence every step of the way.

French

In French, we'll be leaping into *Le carnaval des animaux* – a joyful mix of animals, music and language. Woodpecker Class will build their vocabulary and confidence through games, songs and storytelling.

Art & DT

In Art, the class will experiment with painting techniques to create dramatic effects using light and dark. Over in DT, they'll become seasonal chefs – learning to cook delicious dishes while understanding where food comes from and how to eat healthily.

Computing

In computing, we will create and debug sequences in our coding.

Music

Woodpecker Class will revisit key musical skills while exploring new styles and songs. They'll have fun performing and reflecting on how far they've come this year.
